Plodia interpunctella

THE BEST Mixable IPM Program for Industry-Wide Insect Management Available Today!

CIDETRAK® IMM MEC™ *is a highly sophisticated microencapsulated (MEC) controlled release formulation, created by semiochemical scientists for semiochemicals and their users.*

- *Easy to use – just shake, tip, and pour for singular spray or tank mix*
- *Flexible treatment intervals depending on population abundance*
- *Low labor requirements*
- *Complete flexibility on time of use*
- *No shutdown, no downtime*
- *Can be used in raw commodities, food processing, retail, and other*
- *Easy to tank mix*

Mix 1 oz. per 1 gallon of water and treat up to 3500 sq. ft. of various retail facilities, including pet supply and grocers

Simply Spray It Or Fog It

Features:	Benefits:
· *Highly sophisticated microencapsulated (MEC) controlled release formulation, created by semiochemical scientists for semiochemicals and their users*	· *Less labor, Less insecticide, Less contamination*
· *Terminate/delay mating*	· *Reduces or eliminates larval populations*
· *3-way effect on mating*	· *False trail following, trail masking and antennal overload*
· *Often more effective than insecticides over time*	· *Cost effective insect management*
· *Continuous preventative strategy*	· *24-7 results*
· *Broad spectrum for many moths*	· *Limited applications; economical*
· *Works in multiple environments*	· *Flexible and effective for sensitive users*
· *Non-toxic*	· *Less interruption from plant shutdowns for insect control*
· *Reduces toxic insecticide use*	· *Reduced worker and consumer concerns*
