Mix 1 oz. per 1 gallon of water and treat up to 3500 sq. ft. of various retail facilities, including pet supply and grocers

Simply Spray It Or Fog It

CIDETRAK IMM MEC MICROCAPSULES

Highly sophisticated microencapsulated (MEC) controlled-release formulation, created by semiochemical scientists for semiochemicals and their users

Features:

- Highly sophisticated microencapsulated (MEC) controlled-release formulation, created by semiochemical scientists for semiochemicals and their users
- Terminate/delay mating
- 3-way effect on mating
- Often more effective than insecticides over time
- Continuous preventative strategy
- Broad spectrum for many moths
- Works in multiple environments
- Non-toxic
- Reduces toxic insecticide use

Benefits:

- Less labor, Less insecticide, Less contamination
- Reduces or eliminates larval populations
- False trail following, trail masking and antennal overload
- Cost effective insect management
- 24-7 results
- Limited applications; economical
- Flexible and effective for sensitive users
- Less interruption from plant shutdowns for insect control
- Reduced worker and consumer concerns
